## WORK EXPERIENCE

### Quality Assurance Engineer

#### PrimeRevenue

05/2018 – Present

Atlant, GA

Where banks see supply chain finance as just another way to lend money, PrimeRevenue live and breathe the know-how needed to create a successful dialogue between buyers and their suppliers.

##### Achievements/Tasks

- Creating detailed, comprehensive and well-structured test plans and test cases.
- Estimating, prioritizing, planning and coordinating quality testing activities.
- Created and execute manual test cases in JIRA.
- Created training documentation for the assigned product in Prism.
- Worked with internal teams (e.g. developers and product managers) to identify system requirements.
- Worked within an Agile team.

### Associate Automation Engineer

#### Bridgevine

09/2016 – 04/2018

Alpharetta, GA

Bridgevine is the premier provider of demand generation, merchandising, commerce and lifecycle management solutions across all channels

##### Achievements/Tasks

- Used Selenium WebDriver to automate web tests.
- Implement QA process and Automated testing for all work streams to improve the overall testing cycle.
- Experience with Continuous Integration and Deployment (CI/CD) tools such as Jenkins.
- Experience in developing end-to-end build/release automation for complex solutions for large-scale enterprise systems such as AT&T, CenturyLink, Windstream, Cox, etc
- Experience running parallel tests using Docker containers to speed up test run times.
- Implement QA process and Automated testing for all work streams to improve the overall testing cycle.
- Participated in the development and support of the test cycles aimed at supporting multiple testing efforts simultaneously.
- Involved in all aspects of development lifecycle including backlog grooming, development, test, and deployments.

### Front End iOS Intern

#### Maze Services

02/2018 – 04/2018

Remote

MAZE is a mobile servicing platform that connects talented, local hair & nail professionals to clients.

##### Achievements/Tasks

- Worked on a significant consumer app that will soon be available in marketplace.
- Experience in CSS, Javascript – React.
- Worked with Android Studio and Simulator.
- Excellent interpersonal communication with strong verbal / written English skills

## LANGUAGES

English

Urdu

Volunteering

Women Who Code

## WORK EXPERIENCE

### General Assembly- Student

#### General Assembly

12/2017 – 03/2018

Remote

Since 2011, General Assembly has transformed tens of thousands of careers through pioneering, experiential education in today's most in-demand skills by providing career results from leading-edge courses, with mentorship each step of the way.

##### Achievements/Tasks

- Using Javascript, I have created several projects that are interactive, fun and user-friendly. I have also learned what is involved in programming in front-end development by learning about APIs, creating a website and learning about the best practices when it comes to coding. This has helped me become a better automation engineer and a tester. [↗](#)

### Quality Assurance Associate

#### Zahdoo

03/2015 – 08/2015

Johns Creek, GA

Zahdoo is the maker of Cadie, a smart companion with built-in lite artificial intelligence. It combines productivity with social features and offers recommendations for everyday activities.

##### Achievements/Tasks

- Created detailed test plan.
- Participated in various Agile ceremonies.
- Organized and tracked version compatibility requirements.
- Reported defects using Zoho. • Ensured testing met organizational standards and business requirements.
- Tested multiple mobile devices to ensure compatibility
- Wrote and executed test cases and documented results.

### Quality Assurance Intern

#### New York Financial Partners

08/2013 – 01/2015

Remote

New York Financial Partners is a specialty financial planning firm dedicated to providing a personal approach to investing and retirement for their clientele.

##### Achievements/Tasks

- Designed test plans based on software requirement specifications.
- Created and executed manual test cases in VersionOne.
- Involved in ETL testing to ensure that the source data was correctly translated when imported into the target database.
- Performed smoke tests on daily builds.
- Performed functional and regression tests according to new and existing functionality.

## EDUCATION

### Bachelors of Arts

#### Metropolitan State University [↗](#)

## ACHIEVEMENTS

### General Assembly- Front End Development (12/2017 – 03/2018)

[Learn more about JavaScript and how to apply it in Automation/Development](#)

### General Assembly- SQL Bootcamp (01/2018 – 01/2018)

[Insight in learning more about SQL](#)
